Subject: Drug Court – Revised Phase Structure Requirements for
 Advancement and Graduation Criteria

Date: August 11, 2021

This directive promulgates the revised drug court phase structure requirements, as approved by the Judicial Council. The revisions are effective September 1, 2021. No later than Wednesday, August 25, 2021, each vicinage should provide to Statewide Drug Court Manager Donna Westhoven a breakdown of the risk level of all drug court participants who are currently admitted into the program.

The changes in the Directive include separate tracks in the program based on a client's risk score as determined by the Ohio Risk Assessment Tool (ORAS) and new criteria for phase advancement and graduation, as well as associated forms. The changes more closely align New Jersey's drug court program with the Best Practice standards established by the National Association of Drug Court Professionals (NADCP).

Each client in the program will have an individualized case plan, based on their specific needs. Those case plans will include employment, payments of fines, and engagement in pro-social activities, based on client risk level, in a manner that

will ensure statewide consistency. The forms and requirements for phase promotions and graduation will be consistent statewide for each Vicinage Drug Court. No additional requirements should be added at the local level (e.g., to move to a higher or lower phase or to graduate from the program).

Additionally, fines will not need to be paid in full for a client to be able to graduate from drug court. This modification from the current approach will sever the linkage between ability to pay financial assessments in their entirety and eligibility for graduation from Drug Court. Before the last phase of the program, each client's case will be referred to the Collections Enforcement Program (CEP) to review any outstanding financial obligations and each case will also be reviewed to confirm that they have received any applicable credits as allowed by the Drug Enforcement and Drug Reduction (DEDR) statute.

Also, the revised policy shortens the length of time that a client will spend in each of the phases, as well as the required period of sobriety in each phase. Research indicates that this reduction in phase times should provide an incentive for clients as they progress through the program. Consistent with statutory requirements, graduation from Drug Court will require two years in the program and one year sobriety.

Certain supervision tools used by probation officers are being adjusted as follows: (1) all clients until their last phase of the program will undergo random drug testing twice per week; and (2) clients will be visited monthly in the field in phases one and two and then every other month for the rest of their time in the program.

Questions regarding this policy may be directed to Donna Westhoven, Statewide Drug Court Manager via email at Donna.Westhoven@njcourts.gov or by telephone at 609-815-2900 ext. 55316.

Assessment Phase Chart (for use by Drug Court Team)

ASSESSMENT PHASE

For use by the Drug Court team only

Assessment Phase serves to orient clients to the drug court program and occurs only once during drug court tenure. Clients are engaged in this phase as here noted:

- All clients between plea and sentence
- All sentenced clients during their first 30 days after sentencing who are initially recommended to outpatient treatment
- All sentenced clients who are initially recommended to residential treatment during their first 30 days post-discharge

Every client engaged in Assessment Phase attends weekly court sessions separate from other participants in order for the team to familiarize them with the structure and requirements of drug court, inclusive of regular reporting to the drug court judge.

Teams are to provide Assessment Phase clients with weekly presentations and resources including but not limited to the following: participant handbooks, overdose awareness, *The Standard Conditions of Adult Probation*, phase requirements and promotions, *Medications in Drug Court*, and expungements.

Pre-Sentence Clients

Requirements for all post-plea clients pending sentencing into drug court

- Attend court weekly
- Engage in treatment
- Submit to drug testing as instructed
- Submit home verification documentation*
- Follow any conditions of release
- Presentence clients are retained in the Assessment Phase for the extent of time between plea and sentence

**The following are acceptable for home verification:*

- Utility or credit card bill issued in the past 90 days (mail addressed to a P.O. box is not acceptable)
- Checking or savings account statement from a bank or credit union issued within the past 60 days
- Original, current, unexpired lease or rental agreement displaying applicant's name
- Property tax bill, statement, or receipt from the past year
- Any letter or correspondence (including tax bills) received from the IRS or state tax office in the past year
- First-class mail received from federal, state, or local government agency in the past six months
- Pay stub within the past 90 days (must contain address)

Sentenced Clients

Requirements for all newly sentenced drug court clients or those completing initial residential treatment.

- Attend court weekly
- Cooperate with supervision
- Fulfill weekly office visits
- Create a case plan
- Submit to random drug testing (2x/week) *
- Engage in treatment
- Complete home assessment
- Complete *Risk Assessment*
- Sentenced clients are maintained in the Assessment Phase for 30 days post-sentence

**Two drug tests per month may be conducted by treatment providers, however, these results can only be addressed therapeutically and not as a basis for jail sanction or violation of probation.*
